Ms. Bernadette Jaster, Assistant Principal

Pineloch Elementary School's *Weekly Service Index* closed out the school week at the 114.0 level on Friday. This means that as a group, Dr. Choice's weekly performance indicators managed to reach 114% of their weekly goals (bottom row of table).

FIVE DAYS

This week six of the sixteen indicators that make up the Pineloch Service Index improved relative to their goals. These positive contributors – beginning with the largest positive indicator – were the number of third grade *Accelerated Reader* tests taken and passed at the 80% level, the custodial staff attendance rate, the number of team meetings, the para-professional attendance rate, the cafeteria staff attendance rate and the instructional staff attendance rate.

As things now stand, Dr. Choice has set out a goal of four contacts per week for her *Partner-in-Education* contacts. The nearby chart illustrates that this has not been a problem on a school year-to-date basis. Year-to-date the school has averaged 7.7 per week...+91% better than expected.

Of the five strategic goal categories seen in the table on page two, only one, *Intense Focus on Student Achievement*, had any weekly indicators that came in at less than 85% of goal. However, as a group, the *Student Achievement* measures still managed to average 100.6% of their goals.

How to read the table: The indexes are read as percent-of-goal achieved whereby 100.0 equals exact-to-goal. Principal Choice established these weekly measures last summer as method for tracking progress against the school's strategic goals during the year. If any indicator has its index shaded in red, then it is performing at less than 85% of goal for that time period. Over time, Pineloch's five-day service indicators should be falling inside the 85.0 to 110.0 range (shaded in yellow).
